2027 IndiaLics Annual International Conference

IndiaLICS is the India chapter of Globelics, an international network of scholars who apply the concept of Learning, Innovation, and Competence-building System (LICS) as a framework for promoting inclusive and sustainable development in developing countries, emerging economies, and societies in transition. The 2027 IndiaLICS Conference will focus on global perspectives on India's Innovation System.

The conference has a vision of highlighting the values of the regional innovation systems, infrastructure ecosystems, and financial and capital market institutions as the three interconnected pillars of sustainable and resilient development. The capacities of regions are playing an increasingly vital role in innovation-driven growth and development in a world of uncertainty, technological shifts, climate change, and strategic economic reorientation.

Conference Theme and Sub-Theme

The conference will deliberate on theoretical advances, empirical evidence, and policy experiences from India and other developing economies while exploring how regional systems can mediate between national strategic ambitions and local developmental realities. Through this engagement, the conference seeks to contribute toward reimagining development pathways that are innovation-driven, regionally grounded, socially inclusive, and globally relevant. While the overarching theme of the conference centers on “Reimagining Innovation and Development in the Global South: The Role of Regional Innovation, Infrastructure, and Capital Markets”, the conference also welcomes contributions on a broad range of related themes that have featured prominently in earlier IndiaLics conferences. Indicative sub-themes include:

- Regional Innovation Systems and Development in the Global South
- Innovation Policy, Infrastructure, Financial Systems, and Regional Inequality
- Innovation, Sustainable Infrastructure, and Green Development Transitions
- Inclusive, Grassroots, and Frugal Innovation in Regional Economies
- Capability Building, Infrastructure Governance, and Structural Transformation
- Digital Infrastructure, Artificial Intelligence, and Emerging Technologies
- University–Industry–Government Linkages and Regional Knowledge Ecosystems
- Entrepreneurship, Startups, MSMEs, and Regional Innovation Ecosystems
- Physical, Digital, Energy, and Logistics Infrastructure for Regional Development
- Capital Markets, Financial Systems, and Innovation-Led Development
- Venture Capital, Development Finance, and Startup Ecosystems
- Banking, Financial Inclusion, and Regional Development
- Green Finance, Sustainable Investment, and Climate Transitions
- Infrastructure Finance, Public–Private Partnerships, and Regional Growth
- Internationalization of Innovation Systems in an Era of Global Uncertainty
- Climate Change, Green Infrastructure, and Resilient Development Pathways
- Public Institutions, Developmental States, and Competence Building
- Labour Markets, Skills, Human Capital, and Social Infrastructure
- Industrial Clusters, Infrastructure Corridors, and Global Value Chains
- Innovation, Financial Access, Social Inclusion, and Regional Equity
- Governance, Institutions, Infrastructure, and Regional Development Strategies
- Digital Public Infrastructure, Fintech, and Financial Transformation

The above themes are indicative rather than exhaustive. The conference invites innovative, interdisciplinary, and policy-relevant contributions from scholars, practitioners, policymakers, industry representatives, and development organizations across diverse disciplines aligned with the broader conference theme.
